Show the below picture after the 3 parameters are entered

DIN A4

Xx

A Page format depends on binding.

For example, for hard cover you can only select page format DIN A4.

B Cover type depends on binding.

Depending on the selected binding, the cover type **AA** or **BB** will be displayed.

Content of cover type depends on binding.

C Allowed number of pages depends on **binding**, **side option (one-sided/two-sided)** and **paper weight**.

D DIN A3 und DIN A2 pages depend on page format.

For example, for page format DIN A5 you cannot order additional DIN A3 or DIN A2 pages.

E Refinement type depends on binding.

Depending on which binding was selected, refinement type **CC** or **DD** or **nothing** will be displayed.

J Embossing depends on binding.

For example, for the binding hard cover the embossing "edition" and "classic" exist, but for the binding soft cover only the embossing "edition" is available.

F Spine depends on **number of sheets** (calculated by number of pages and side option) and **paper weight**.

For example: With 100 g/ m² paper from 40 sheets on you can order spine.

G Depending on which page format was selected, in the information of „number of pages" the correct DIN format is shown.

For example: page format is DIN A4, then the information (i) "only DIN A4" is shown.

H If one-sided or two-sided is selected, the recommended paper is filled automatically but customer can change the paper

For example: for one-sided recommended paper is 100 g/m²

K Number of letters, which the customer can type in, depends on **number of pages, one-sided/two-sided** and **paper**.

* The values of the parameter can be activated/deactivated.

Content:

Side option | One-sided | **C, H, K**
Two-sided

Edge option | Long edge (normal) | **i**   **i** It is explained
Short edge

Paper   ***** | 100 g/m² | **i, C, H, K**   **i** Recommendation:
120 g/m²
80 g/m²
...

                                                         for one-sided 100 g/m² paper
                                                         for two-sided 120 g/m² paper

Number of pages | [ ] | **i, C, G**   **G , i** Must be the number of uploaded pdf file and only of selected page format ("DIN A5" / "DIN A4" / "DIN A3")

Color pages | Yes
No

Number of color pages | For example: | **i, 1**   **i** The pages of the PDF file (document) must be written
3,12,15-23,37,...   **1** Customer can only use **numbers**, **commas** and **hyphens.**
                                              The number of color pages will be calculated and shown.
